

a brighter future

Honeywell's New TouchCenter Graphic Keypads... Now with Color, Customization and Voice!

The vibrant, crystal-clear color displays aren't the only thing that's bright about Honeywell's 6271 Graphic touchscreens. With a TouchCenter to suit the lifestyle and budget of every single one of your customers—including brilliant color or monochromatic displays and convenient voice prompts that guide users through emergencies—the opportunities are endless. With homescreen customization, you can display a family photo, the central station phone number—even your own logo! What's more, advanced features like lighting and garage door control provide an excellent upsell opportunity.

No other keypad can touch it!
