

## Convenience is Calling!

Our Vista Interactive Phone Module (VIP) is the perfect fit for your active life because it's security that goes with you—letting you enjoy extra mobility without ever compromising your safety or peace of mind.

The VIP turns ordinary touchtone and cellular phones into keypads, letting you control your home security system remotely from your car, office or anywhere in the world.

- Conveniently arm, disarm or check the status of your system from any location
- Control lights, appliances and adjust heat or air-conditioning settings when used with an optional Honeywell thermostat
- Utilizing a high quality voice output and large vocabulary, the VIP describes security zone status and suggests the appropriate action
- When used with an optional Honeywell speaker, the VIP can conveniently broadcast intuitive, menu-driven messages by phone or in the home

For the ultimate in convenience, control and peace of mind, count on the VIP.
