

## Sounds As Good As It Looks

It's good to know that your new cinema system will handle the most awesome big-screen onslaught without breaking a sweat. With Proficient, the investment in your new flat panel display will sound as good as it looks.

Our inwall LCR speakers provide flawless reproduction at all listening levels, from a whisper to a monster train wreck. For movie nights, concerts and all kinds of games, they deliver seamless imaging and staging, with lows that kick, mids that deliver open and airy voicing – and highs sweet as honey. Our flagship IW550 features two 5¼" Kevlar woofers that deliver high cranking power and a pivoting 1" aluminum dome tweeter for the absolute in upper-end response. Add three-position contour switches so you can tune the system to your room. You'll want to crank it up like never before.

The IW525 is a beauty, too. With twin 5¼" graphite woofers for super-tight bass lines, a 1" aluminum dome pivoting tweeter for smooth and silky top-end notes, plus and minus bass and treble contour switches to dial the speakers to your room.

Quality-built, of course. Exactly what you'd expect from a premium brand like Proficient.
