

Warm Up Your Room

You've found it. A favorite place to spend the best part of your day. And, fortunately, you've found the C Class speakers from Proficient. With their outstanding performance and lifelike sound, they make any home much more entertaining.

Take the Proficient C605 ceiling speaker, for example. It's rugged and attractive, yet thoroughly unobtrusive. And with a 6½" polypropylene woofer, ¾" soft dome tweeter and 75 watts of power handling, it'll easily match the dynamics of today's digital sources. So, you can listen to your favorite music, movies, concerts and sports events and really feel like you're there.

The same goes for the W665. It gives you the same blend of sonic performance, high fidelity specifications and fine craftsmanship in an in-wall configuration. And, like the C605, it accommodates an optional metal back box to reduce the possibility of unwanted vibration between rooms.

Best of all, both speakers come with Proficient's Ten-Year Warranty. That makes the C Class an even better value. With sound this rich and clear, it's good to know it'll stay that way for years to come.

Quality-built, of course. Exactly what you'd expect from a premium brand like Proficient.
