

OUTDOOR SPEAKER SYSTEMS

Their Design is Pure Science . . . Their Beauty is Pure Art

It would be safe to say that there has never been a better performing **All-Weather** speaker line than the **Proficient AW** speakers. They utilize the highest quality components and the kind of advanced construction techniques that have helped make Proficient the **fastest growing brand** in the business.

We start with polypropylene woofers that produce **huge amounts of bass** so necessary for an outdoor environment. Then we match them to ported enclosures so all that bass comes through very loud and very clean. And, because life is more than bass alone, Proficient speakers have soft dome tweeters that produce **brilliant highs** every time.

Add a gorgeous, weather-resistant ABS plastic cabinet and aluminum grilles and you have **great sound and reliability** that you'll appreciate for many years to come. There's no better way to enjoy the sound of the great outdoors than Proficient's AW Series: proven **Proficient Performance** regardless of what the weather may bring.

Quality-built, of course. Exactly what you'd expect from Proficient.

AW830

8" Stereo Indoor/Outdoor Speakers for Whole House Audio Systems

Woofers: 8" Polypropylene Cones

Midrange: 3" Graphite Cones

Tweeters: 1" Pivoting Supernil Soft Domes

Power Handling: 175 watts

Frequency Response: 35Hz - 20kHz

Impedance: 8Ω

Sensitivity: 89dB 1W/1m

Dimensions: H 15¾" x W 8¾" x D 8¾"

Colors: White & Black

Unit of Measure: Pair

AW650

6½" Stereo Indoor/Outdoor Speakers for Whole House Audio Systems

Woofers: 6½" Polypropylene Cones

Tweeters: 1" Pivoting Supernil Soft Domes

Power Handling: 150 watts

Frequency Response: 37Hz - 20kHz

Impedance: 8Ω

Sensitivity: 89dB 1W/1m

Dimensions: H 11" x W 7" x D 6¼"

Colors: White & Black

Unit of Measure: Pair

AW525

5¼" Stereo Indoor/Outdoor Speakers for Whole House Audio Systems

Woofers: 5¼" Polypropylene Cones

Tweeters: 1" Pivoting Supernil Soft Domes

Power Handling: 125 watts

Frequency Response: 45Hz - 20kHz

Impedance: 8Ω

Sensitivity: 89dB 1W/1m

Dimensions: H 9¾" x W 6½" x D 6¾"

Colors: White & Black

Unit of Measure: Pair

AW400

4" Stereo Indoor/Outdoor Speakers for Whole House Audio Systems

Woofers: 4" Polypropylene Cones

Tweeters: ¾" Supernil Soft Domes

Power Handling: 100 watts

Frequency Response: 55Hz - 20kHz

Impedance: 8Ω

Sensitivity: 87dB 1W/1m

Dimensions: H 7¾" x W 5½" x D 5½"

Colors: White & Black

Unit of Measure: Pair

Disturbing The Peace

M6

The Proficient M6 Multi-Zone Controller is a gorgeous, high performance, purpose-built machine that offers you everything your heart desires from a world-class audio controller. Like what you say? The fact that the M6 manages 6 zones, runs 6 sources and even has 2 tuners, so you can move from the pool to the patio and hear your favorite stuff anywhere and anytime.

Or, how about the ear-popping power of its 30 watts per channel, 60 watts per zone, all digital amplifiers for the hottest performance and the coolest operation? The Proficient M6 is a serious product that gives you the ultimate command of your entertainment throughout your backyard.

M4

There's simply no denying the pleasures of a really great whole house audio system. Enter the Proficient M4. With the features of a single zone system and the flexibility of a multi-zone setup, the new Proficient M4 is a solution worthy of your closest look-see.

But your love affair with the M4 won't end there. Now you can enjoy heart-stopping performance in four zones and run up to six component sources. The M4 pretty much guarantees you're going to be hearing what you want—where you want it.

Fully programmable and expandable; high performance digital amplification; world class Proficient reliability and quality. Just a few of the reasons to consider the M4 Audio Controller.

AW800TT
